VEHICLE IDENTIFICATION SYSTEM FOR RX-7

SERIES (1986 ~ 1988)

VIN (= Vehicle Identification Number) for RX-7 series (1986 ~ 1988 Year Model) consists of WMI (= World Manufacturer Identifier), VDS (= Vehicle Description Section) and VIS (= Vehicle Identification Section). VDS consisting of six alphanumeric characters denotes the "MODEL SERIES". VIS consisting of eight alphanumeric characters denotes the serial unit number of vehicle and is sequentially numbered within each VDS.

* Check digit is included as a VIN security feature to permit law enforcement verification of the authenticity of a suspected illegal VIN plate. This single digit number is determined, based upon a complex mathematical formula which is applied to each vehicle's VIN number.

** Miscellaneous Identification Code identifies major components such as engine, brake system, cab type, etc

LOCATION OF VIN PLATE

The plate is attached to the top ledge of the dash panel under the bonnet (engine hood), refer to the illustration shown right.

[NOTE]

If the VIN (chassis) reference number in the PCM (Parts catalog microfiche) appeared as:

FC33 *-100001

... the vehicle's VIN would be e.g. FC331H0100001.

INSTRUCTIONS

HOW TO LOCATE PARTS

There are four approaches to locate parts as follows.

Open the catalog to the illustration page indicating the referred section number at the upper left corner of the page

Find the D-code indicated for the desired part in the illustration

All your necessary information on the desired part is found at the referred D-code that is located within the related text (s) following the illustration

IMPORTANT

If you are not sure which parts catalog compiled to cover the model you are researching, refer to **MODEL IDENTIFICATION** and/or **VEHICLE IDENTIFICATION SYSTEM** located at the very front part of the parts catalog

The illustration and related text pages are compiled in numerical sequence by section number through the parts catalog. However, there is one exception: the section number, "0900 key sets" is always located in the first part of Body group

D-code

In the text, the D-codes and the related information are listed in the alphabetical and numerical sequence by D-code within each section number

HOW TO INTERPRET THE ILLUSTRATION

In the example shown below, each item is interpreted as follows

SECTION NUMBER

Each illustration is identified by Section Number which indicates the group of parts classified by function.

SECTION NAME

SECTION'S APPLICATION

The section's application is indicated in parentheses () below the section name when the affected illustration/text is applicable to specific model, certain period of the production, etc.

D-CODE (KEY NUMBER)

The D-code consisting of five or six digits serves as a "KEY NUMBER" to co-ordinate a drawing with its detail information in the text.

RELATIONSHIP BETWEEN ASSEMBLY AND ITS COMPONENTS

The relationship between an Assembly and its Components is illustrated only by drawing. The example shown left denotes that D-code 68420 includes D-codes, 68421A, 68422 and 68425 and standard part numbers, 998650516B, 999100503 and 997390414.

STANDARD PART NUMBER

Nine or ten-digit number which appears in the illustration is standard part number. The standard part number indicated in the illustration instead of D-code does not appear in the related text.

HOW TO INTERPRET THE TEXT

In the example shown below, each item is interpreted as follows.

5840-2 FRONT DOOR TRIM & RELATED PARTS (SEDAN & HATCHBACK)					
PART NO	QT	MODEL/RESTRICTION	MODE RESTRICTION	MODEL/RESTRICTION	FROM TO

GC241-504548	

SECTION NUMBER

TEXT SEQUENCE NUMBER

The number following a hyphen denotes the text sequence number within each section number.

SECTION NAME

SECTION'S APPLICATION

D-CODE

In the text, D-codes and the related information are listed in the alphabetic and numeric sequence by D-code within each section number.

PART NAME

Part name is described for each D-code in one through three languages out of four languages such as English, French, Spanish and German.

The indicated languages vary, depending upon the market which the parts catalog is applicable to.

PART NUMBER

Under one D-code, if there are more than one part number due to the part change involved, the part numbers are listed in the sequence of the part production timing. the early used part number is shown first and the later one follows it

INTERCHANGEABILITY CODE

One or two-digit alphabet appearing in the extrem left hand side of the text is an interchangeability code

This code indicates the nature of interchangeability between the two part numbers shown in the right with parentheses and above

The following interchangeability codes have been currently used in the parts catalog

Code	Direction	Description
A	One Way	A new part can be used in place of the former part, but the former part cannot be used in place of the new part
A'	Both Way	A new part and the former part are fully interchangeable
C	Plus	A new part requires additional parts to be used in place of the former part
CG	Plus	A new part requires additional parts and modification work to be used in place of the former part
G	Plus	A new part requires modification work to be used in place of the former part
S	One Way Backward	The former part can be used in place of a new part, but the new part cannot be used in place of the former part

⑦ SUPERSEDING PART NUMBER

When a part is changed and new part is interchangeable with the former part, the new part number as the superseding part is shown in parentheses right under the former (superseded) part number.

⑧ NEW PART NUMBER IDENTIFICATION

An asterisk (*) denotes that the indicated part number has been added since the last microfiche edition (not the last paper edition).

The microfiche parts catalog is revised more frequently than the paper one.

⑨ QUANTITY

This denotes the quantity of the part used under the indicated D-code within each section number.

⑩ MODEL APPLICATION

Model application for each part number is described in one through three languages out of four languages such as English, French, Spanish and German.

⑪ PART USAGE RESTRICTION

Part usage restriction is shown for factory installed option parts to indicate under what condition the part is installed.

This information is also described in one through three languages

⑫ COLOR CODE OF PART NUMBER

For color keyed parts, two-digit color code(s) appear(s) right under its basic part number consisting of nine or ten digits. The complete part number for color keyed parts consists of the basic part number (9 or 10 digits) and the color code (2 digits)

⑬ INTERIOR or PAINT CODE FOR VEHICLE

The applicable interior or paint code(s) for the vehicle is (are) indicated to each color code of part number.

⑭ COLOR DESCRIPTION OF PART

A color description of the part is indicated to each part's color code in one through three languages

⑮ PART CHANGE DATE

When a part is added, changed or deleted, the effective date coded in four digits is shown as follows.

Example

2	B	0	1
		Day	
		Month →	
		Year	
		(The last digit of the year)	

1...Jan.	4...Apr.	7...Jul.	A...Oct.
2...Feb.	5...May	8...Aug.	B...Nov.
3...Mar.	6...June	9...Sept.	C...Dec.

—2801 Used up to 2801
2801— Used from 2801
2801—3315 Used from 2801 to 3315

⑯ VIN NUMBER

The VIN number(s) related to the part change date is (are) shown in the footnote column, referring each date shown above

⑰ MULTIPLE SUPERSESSION

Shown as the example is a multiple supersession identified by the interchangeability codes "C" and "CG" one part can be replaced by more than one part

When the interchangeability codes "C" or "CG" appears in the text, a complete information on the multiple supersession will be shown in the footnote column of the same text

Example

G030-68-401	C	→	The left example should be interpreted as: Part No. G030-68-401 can be replaced by Part Nos. G030-68-401A (1 pc.) and 99928-10-500 (2 pcs.).
G030-68-401A	01		
9928-10-500	02		

HOW TO INTERPRET THE VIN APPLICATION

If the part change date appears as the example below:

PART NO.	QT	MODEL/RESTRICTION	MODEL/RESTRICTION	MODEL/RESTRICTION	FROM-TO
11-210		ROD, CONNECTING	BIELLE	BIELA	
E301-11-210	4	1100 1300	1100 1300	1100 1300	-3801
E301-11-210A	4	1100 1300	1100 1300	1100 1300	3801-4215
E301-11-210B	4	1100 1300	1100 1300	1100 1300	4215-

3801	BD1012	805912
	BD1032	824340
4215	BD1012	816750
	BD1032	830192

it should be interpreted:

- Part No. E301-11-210 is applicable to 1100 cc, from the initial production through BD1012 805911 (= 805912 minus 1) and 1300 cc, from the initial production through BD1032 824339 (= 824340 minus 1).
- Part No. E301-11-210A is applicable to 1100 cc, from BD1012 805912 through BD1012 816749 (= 816750 minus 1) and 1300 cc, from BD1032 824340 through BD1032 830191 (= 830192 minus 1).
- Part No. E301-11-210B is applicable to 1100 cc, from and after BD1012 816750 and 1300 cc, from and after BD1032 83192.

Note:

The parts catalog often shows the catalog designation VIN instead of the actual VIN. For the correct interpretation for the catalog designation VIN, refer to explanation in "Vehicle Identification System" shown in the extreme right row of the last microfiche in the set.

HOW TO INTERPRET THE SUPERSESSION

If the supersession information appears as the example below:

PART NO.	QT	MODEL/RESTRICTION
58-921		FASTENER
G030-68-401	22	1300
A (G030-68-401A)		1500
G030-68-401A	22	1300
		1500

Interchangeability Code		Model Application for Part No. G030-68-401
Superseding Part Number		

Color Code		
68-420		TRIM (R) DOOR
GB06-68-420A	1	
00		BA1 BLACK
A (GB06-68-420B00)		
10		BA2 RED
A (GB06-68-420B10)		
GB06-68-420B	1	
00		BA1 BLACK
10		BA2 RED

Interchangeability Code		
Superseding Part Number		

it should be interpreted:

- Part No. G030-68-401A can be used in place of part No. G030-68-401.
- Part No. GB06-68-420B00 can be used in place of part No. GB06-68-420A00.
- Part No. GB06-68-420B10 can be used in place of part No. GB06-68-420A10.

HOW TO INTERPRET THE MODEL APPLICATION

If the model application and the usage restriction appear as the example below:

Watch the information in parentheses ().!!

3210 .1 STEERING COLUMN
(SEDAN)

PART NO.	QT	MODEL/RESTRICTION	MODEL/RESTRICTION	MODEL/RESTRICTION
32-071	BUSH		BUSELURE	BUJE
8001-32-071	1			
32-100	SHAFT, ENGY. ABSORBER		COLONE TELESCOPIQUE	EJE, AMORTIGUADOR
8A29-32-100A	1	(W/POWER STEERING) 1300 > MT 1500 > MT	(A/DIRECTION ASSISTEE) 1300 > B. V. MANU 1500 > B. V. MANU	(C/DIRCCION DE POTENCIA) 1300 > TM 1500 > TM

- it should be interpreted:

- ① Part No. 8001-32-071 is applicable to all the Sedans covered by this particular catalog.
- ② Part No. BA29-32-100A is applicable to Sedan 1300 Manual Trans. and Sedan 1500 Manual Trans in case they are equipped with the power steering.

MAZDA PART NUMBERING SYSTEM

Mazda Part Numbers are generally classified into three categories:
General Service Parts & Accessories, Standard Parts and Special Tools.

Note: Mazda Part Number consists of numeric and alphabet letters. In order to avoid the confusion due to similar characters among number and alphabet, alphabet letters I and O are not used in the part number. However, these letters are rarely used in 10th digit of the part number as an exception.

MAZDA GENERAL SERVICE PARTS & MAZDA ACCESSORIES

These part numbers basically consist of nine or ten digits. The 10th digit (if applicable) identifies the engineering change of the part. The color keyed part, however, consists of twelve digits since two-digit color code are added to nine or ten-digit number to identify its color.

Note: In case the engineering change is not made to a part, the 10th digit of the part number is left blank even for the color coded part, e.g.,

BA01-60-350 00
 ↑ Blank

MAZDA STANDARD PARTS

The Parts standardized in form and dimension such as Bolts, Nuts, Washers, Hoses, Disc Wheels, etc. are called Mazda Standard Parts.

All Mazda Standard Part Numbers are identified by "9" in the first digit. The numbering structure of Standard Parts varies, depending upon the type of part.

The following is just one example of Standard Part Number.

For further details and examples, refer to the wall chart, "LIST OF STANDARD PARTS".

MAZDA SPECIAL TOOLS

In order to repair Mazda Vehicles, several special tools are required. These are called Mazda Special Tools. Mazda Special Tools are identified by the Part Number starting with "49".

1986-88 RX-7 ACCESSORIES

AERO

0000-86-325 - Wing Spoiler
P061-V4-920 -OF - Factory Spoiler

AIR CONDITIONER

Refer to Accy. Bulletin XA-1 for Air Conditioner information.

ALARM

0000-88-1901 - Electronic Shock Sensor
Refer to Accy. Bulletin XG-6 for Alarm information.

ARM REST

Refer to Accy. Bulletin XN-1 for replacement parts.

BATTERY

0000-80-126F
Refer to Accy. Bulletin XG-4 for Battery information.

BLOCK HEATER

0000-88-6600
Refer to Accy. Bulletin XG-5 for installation information.

CAR COVER

0000-88-092A - Evolution 3 Blue
0000-88-090 -LK - Lock Kit
Refer to Accy. Bulletin XG-8 for more Car Cover information.

CARGO COVER

FB01-V1-350 -1F - Red
FB01-V1-350 -5F - Blue
FB01-V1-350 -7F - Grey

CIGARETTE LIGHTERS

B001-66-252

CRUISE CONTROL

8AF1-66-340 - Coupe
8AF2-66-340 - Convertible
Refer to Accy. Bulletin XG-7 for more Cruise Control information.

DOOR EDGE GUARDS

0000-88-3199-BK - Black Universal Type

FLOOR MATS

0000-88-7688-05 - Gray Plush Mat
0000-88-7688-11 - Wine Plush Mat
0000-88-7688-50 - Blue Plush Mat
0000-88-7688-TA - 10th Anniversary Edition Mat

FOG LIGHTS

0000-88-500A-R6 - Clear Complete Kit
Refer to Accy. Bulletin XE-4 for Fog Light parts information.

FRONT MASK

0000-88-0588 - JTU, w/o Air Dam

MUD GUARDS

P045-V3-350 -OF - Front Set
P045-V3-351 -OF - Front Left
P045-V3-352 -OF - Front Right
P045-V3-360 -OF - Rear Set
P045-V3-361 -OF - Rear Left
P045-V3-362 -OF - Rear Right

PAINT

Refer to Accy. Bulletin XE-2 for Touch-Up Paint information.

RACKS

0000-88-1077 - Piper Ski Rack
0000-88-1067 - Sport Rack
0000-88-1200 - Ski Attachment
0000-88-1300 - Bike Attachment
0000-88-1400 - Sail/Surf Attachment
0000-88-1500 - Luggage Attachment

STEREO EQUIPMENT

Refer to Accy. Bulletins XS-1, XS-2, and XS-3 for Audio information.

SUNROOF WIND DEFLECTOR

0000-86-3007

TIRES

Refer to Accy. Bulletins XE-1 for Tire information.

WHEEL LOCKS

0000-88-120C - Wheel Lock Set
0000-88-120C-BP - Lock Blister Pack
Refer to Accy. Bulletin XE-5 for more Wheel Lock information.
